COMI Worldwide | COMI 全球

The Group | 集团介绍

COMI is established in August 1973 with the aim of designing and producing thermoforming machinery, specifically for the refrigeration sector.

After more than 45 years of activity, today COMI is a solid industrial reality, with more than 3.500 systems installed in over 50 countries all around the world, a top-level reference list and a brand among the most prestigious in its market. When the significant development abroad consolidated the company as a reference player in the refrigeration sector, the management decided to diversify its range of solutions through the expansion of its staff, hiring specific technically skilled people, together with an intense activity of company acquisitions, including: **TECHMILL**, expert in CNC machining centers; **AMUT COMI**, specialized in packaging thermoforming machines; **COMI TÈAS**, specialized in automation and laser cutting systems.

COMI公司成立于1973年8月,起始目标为专业从事白色家电行业热成型机的设计与制造。经过超45年的发展,如今的COMI公司,已成长为行业内的现象级企业,有超过3.500台套设备在全球50多个国家安装使用,拥有全球最顶级的品牌客户群体,是市场上最具声望的设备供应商。在国际市场的卓越发展,成就了公司在白色家电领域设备供应商中的标杆企业地位;而通过跨行业的公司并购整合,公司在多元化发展道路上也在迅速地发展壮大,形成了一系列著名的子品牌家族: **TECHMILL**, CNC加工中心的专家; **AMUT COMI**, 致力于包装行业热成型机业务; **COMI TÈAS**, 专业从事钣金线、自动化和激光切割系统的开发制造。

“ Our expertise in specialised machines and in robotics also enable us to offer complete customised systems according to the **specific needs of our customers**

TechMill is a division of COMI Group which offers a complete range of Water Jet machining centers for machining of a wide range of materials. The company has always been able to adapt to the changes in customer needs and to the Water Jet cutting market. The design, production and installation of the machinery is tailored to meet customer needs, studying technical solutions for the continuous improvement of productivity and 360° customization. Each machine is a suit tailored to the needs of our customers. COMI provides the competences and advice of their R&D department. Our engineers ensure feasibility studies, the qualification and optimisation of processes as well as the design and manufacture of complete systems.

All machines are multi-purpose, reliable and precise enables you to cut all types of materials, and to make components in complex or simple forms with optimum productivity!

“ 我们在专用设备和机器人技术方面的专业知识,使我们能够根据客户需求, **提供完整的非标定制系统。**

TechMill是COMI集团旗下从事水射流切割中心的事业部,其水射流切割系统可加工广泛范围的各种材料。公司可满足水射流切割市场上不同客户的个性化需求,并具备介入客户前端开发设计的核心竞争力。我们的工程技术人员可以为客户进行可行性分析,工艺质量保证和 优化服务,也可以设计制造高达20联动轴的复杂系统。

所有机器具备多用途,可靠性和高精度特征,可以让您切割所有型号的材料,通过复杂的或简单的系统以优化的效率生产各种部件。

COMI, leader in design and manufacture of Water Jet Cutting Centre, presents its new generation of table type "WJA II" 3, 4 or 5 axis. Heart of COMI range, it is compatible with all the options and can evolve in time!

The machine is driven by a latest generation CNC FANUC (No.1 Global) allowing ease of use and offering a previously unequalled level of Reliability and Precision. The very high pressure water supply (4000B - 6200B), is supplied by a BFT pump (European No. 1) or KMT (No.1 Global).

The Human/Machine interface is customizable, like the CNC it is fully programmed internally by our Design Office, and managed under Windows 10 PRO. The system is intended to operate autonomously.

The numerous sensors allow control and remote control of the system via a computer network and via internet.

The equipment is very compact and uses only high quality mechanical and electrical components for increased reliability.

STANDARD FEATURES

Cutting speed limited to	30M/MIN.
Repeatability	+/- 0,02 MM.
Absolute precision	+/- 0,03 MM.

CNC WITH INTEGRATED PC

Easy management via the Windows® 10 PRO application
Networking possible (Server)
3D graphic function
Powerful backups
Internet connection as Standard
WebCam optional

COMI公司,杰出的水射流切割中心设计制造商,开发了新一代台面型"WJA II" 3轴,4轴,5轴水射流切割机。

作为COMI机器里的核心机型,它适用所有选配项并可以适时拓展。

组件采用最新一代发那科数控系统(全球第一),操作方便并实现高于以往的高度可靠性和精度。BFT泵(欧洲第一)或KMT泵(全球第一)为系统提供了非常高的水压供应(4000B-6200B)

人机界面可定制,如CNC加工中心,可以通过我们内部设计室完整编程,在Windows 10 PRO 系统下进行管理。该系统意图实现自主式操作。

数字式传感器的存在,让通过计算机和Internet的系统控制/远程控制得以实现。

设备设计非常紧凑,并总是采用高质量的机械和电气元器件来提高系统可靠性。

标准参数

割速度极限	30M/MIN.
重复精度	+/- 0,02 MM.
绝对精度	+/- 0,03 MM.

带集成PC的CNC

通过Windows® 10 PRO的应用实现方便管理
网络支持(服务器)
3D绘图功能
强大的备份
标配因特网连接
选配Webcam

COMI presents its 5-axes-“FBJET III” new generation machine. Open structure set up is conceived with a inox tank cantilever and all advanced technologies.

Our Model has a remote arm and unique configuration for increased accessibility! The machine is driven by a latest generation CNC FANUC (No.1 Global) allowing ease of use and offering a previously unequalled level of Reliability and Precision. The very high pressure water supply (4000B - 6200B) is supplied by a BFT pump (European No. 1) “OEM” version, fully integrated into the machine frame. The Human/Machine interface is customizable, like the CNC, it is fully programmed internally by our Design Office, and managed under Windows 10 PRO. The system is intended to operate autonomously. The waterjet machine is equipped with a remote control system with computer and internet network. The equipment is very compact and uses only high quality mechanical and electrical components for increased reliability.

STANDARD FEATURES

Cutting speed limited to	30M/MIN.
Repeatability	+/- 0,02 MM.
Absolute precision	+/- 0,03 MM.

CNC WITH INTEGRATED PC

Easy management via the Windows® 10 PRO application

WebCam optional

COMI公司,杰出的水射流切割中心设计制造商,开发了新一代台面型“FBJET III” 5轴水射流切割中心。是无缝完美集成当前最领先的技术的专业设计。

我们的型号带有一套悬臂和独特的配置以提高可达性!

组件采用最新一代发那科数控系统(全球第一),操作方便并实现高于以往的高度可靠性和精度。高压水供应(4000B-6200B)采用BFT泵OEM版(欧洲第一),完美集成于设备框架内。

人机界面可定制,如CNC加工中心,可以通过我们内部设计室完整编程,在Windows 10 PRO 系统下进行管理。该系统意图实现自主式操作。

数字式传感器的存在,让通过计算机网络和Internet的系统控制/远程控制得以实现。

COMI presents its High Precision Model, type "LCJET III" 3 axes.

The system is based on a homogenous and user-friendly assembly which uses all the current state-of-the-art techniques.

The stainless steel and modular Housing + Chassis are well adapted to the teaching environment and environmental concerns in the workshop! The Human/Machine interface is customizable, like the CNC, it is fully programmed internally by our Design Office, and managed under Windows 10 PRO. The system is intended to operate autonomously.

The equipment is very compact and uses only high quality mechanical and electrical components for increased reliability.

STANDARD FEATURES

Cutting speed limited to	20.000M/MIN.
Repeatability	+/- 0,02 MM.
Absolute precision	+/- 0,03 MM.

CNC WITH INTEGRATED PC

- Easy management via the Windows® 10 PRO application
- Networking possible (Server)
- 3D graphic function
- Powerful backups
- Internet connection as Standard
- WebCam optional

COMI公司,杰出的水射流切割中心设计制造商,设计开发的高精度型号 "LCJET III" 型3轴或5轴水射流切割中心。

该系统基于一套同质且界面友好型组件,采用了当前最领先的技术

不锈钢和模组化外舱+底盘,适用于教学环境和车间有环保要求考虑的场所。

人机界面可定制,如CNC加工中心,可以通过我们内部设计室完整编程,在Windows 10 PRO 系统下进行管理。

该系统意图实现自主式操作。

设备设计非常紧凑,并总是采用高质量的机械和电气元器件来提高系统可靠性。

标准参数

割速度极限	20.000M/MIN.
重复精度	+/- 0,02 MM.
绝对精度	+/- 0,03 MM.

带集成PC的CNC

- 通过Windows® 10 PRO的应用实现方便管理
- 网络支持(服务器)
- 3D绘图功能
- 强大的备份
- 标配因特网连接
- 选配Webcam
